About Us

A1Systems, a technology, professional consulting and outsourcing company which was founded by a group of young and experienced energetic professionals and driven since its inception in the year 2009. In this short span of time A1System have already earned a good reputation by sincere effort and hard works.

A1System provides end-to-end business solutions to enable clients to enhance business performance for clients across the globe.

The company operates in various segments such as IT & ITES Business, financial services, enterprises in the energy, utilities, communication and services and retail, consumer packaged goods, logistics and life sciences. It offers Consulting Services, IT Services, Engineering Services, BPO Services, with Products and Platforms. The company offers end-to-end business solutions such as Business IT services, independent validation services, infrastructure management, engineering services comprising product engineering; Consulting and systems integration services, comprising enterprise solutions, consulting, systems integration and advanced technologies; Products and business solutions to facilitate intellectual property-led innovation, corporate and universal consulting worldwide.

Vision & Mission Statement

Committed to People & Committed to the Future

These words express A1Systems mission and convey the values we share, they emphasize our respect for people, value creation and contributions to society. Since A1Systems establishment in 2009 these values have inspired us fulfill our corporate social responsibilities in all we do to help to create a higher quality of life for all people, and to ensure the progress continues within our community. We face many challenges today, but our commitment remains unchanged and we continue to take determined steps into the future.

Why you hire our professional consultants?

We live in rapidly changing times, especially for businesses. Consider that, in a single generation, businesses have had to adapt to entirely new marketing channels (web and social), decide how to invest in and utilize new technologies, and compete on a global stage — things that were barely imaginable to our parents' and grandparents' generations.

One side effect of these rapid changes and growth is that no single CEO — or any employee, for that matter — can be an expert in everything. This was, perhaps, always true, but it has never been more apparent.

This is why, in professional view, some of the biggest challenges businesses face today are best met and addressed with qualified consultants. Bringing our consultant helps CEOs add the expertise and skills they need to address particular problems at particular times, and can provide the best possible outcomes.

Scope of Service

OVERVIEW: “**A1systems**”, as mentioned above, markets IT Hardware and Security Peripherals and also deferent types of electronics products in Bangladesh. In connection with the sales of such products, we provide after sales service. We have adequate manpower to support our after-sales -service program to our clients' entire satisfaction. We also do provide enterprise connectivity solutions.

Our Engineers respond immediately from our service-desk after receiving a call from the clients end. Our response time – for on-site service – is Two hour within Dhaka City and within a reasonable period of (transportation) time in case of places outside the Dhaka city.

TRAINING: We believe that importance of training in an organization can never be overemphasized. Therefore we never compromise on this subject. It is also our belief that four major factors (TEAMWORK, TRAINING, and TECHNOLOGY & TRANSPARENCY) are the cornerstones of any business.

We think information & training is the necessary part of the organization and business trade. So we never compromise about this subject.

MARKETING: Each member of our marketing team is highly qualified in their respective fields. The Marketing Manager is highly motivated for market growth.

QUALITY CONTROL: The Organization is fully dedicated towards Quality Control and Service.

TESTING: Technical people test all products & only install quality goods for our valued clients.

AT A GLANCE OF OUR SERVICES

A1systems has been supporting clients nationwide to participate in the automation roll of evolving technology of present era. We offer end to end components to contact center solutions. We provide diversified IT solutions to meet precious client's business query. Our Software's are providing soft automation to customize respective client requirements. We believe that every customer inquiry is unique. Your cordial co-operation and suggestions make us glad to touch the apex of the new techno arena.
